Customer Journey Map – Process Ownership & Opportunities

Process Ownership <i>Who is in the lead on this?</i>	LegalEase Team / AI System	LegalEase Team / AI System	User + LegalEase System
Opportunities <i>How can we improve this stage?</i>	• Make document types easy to understand. • Provide clear guidance before the user starts. • Use a simple, mobile-friendly interface.	• Use guided forms with required-field validation. • Give helpful examples for each field. • Generate a structured draft quickly.	• Provide clear preview and editing. • Add PDF formatting and download. • Show a reminder to review the draft professionally when appropriate.

Key Journey Insight: The main user need is a straightforward path from identifying a document requirement to obtaining a structured draft. LegalEase should reduce unnecessary steps, make required information clear, and give users control to review the generated document before PDF download.
